

\* Legal Mail \*

Hey, My name is Theodore M. Kimble. My case is very high profile. My wife was Patricia B. Kimble. She was shot and burned in our home in Pleasant Garden NC. on 10-9-95. Without a doubt, I've been denied the right to a fair trial. I'm a victim of obstruction of Justice. I'm charged with Conspiracy to Murder in the first degree. Arson first degree, and 8 new accounts of conspiracy to commit murder. The DA has bought testimony, blackmailed opposing witnesses and set witness up. Everyone's getting a deal cut with the DA to lie against me. The DA has called press conferences to brain wash the potential Jurors and witnesses. All of these points can be proven in a matter of hours by an investigator who's willing to interview a few witnesses. In several states it's against the law for a DA to offer plea agreements in exchange for testimonys. This places too much power in the DA's hands to persuade co-defendants to lie. My complaint is against Guilford County (NC) Sheriff's department and the DA's office. I'm writing to notify you of the obstruction of justice going on by law enforcement who believe themselves to be above the law. This is "no" joke, I can prove these accusations.

The DA told one opposing witness, "Your life is at a fork in the road. One leads to prison and the other to probation. You know who's trial to show up at, and who's not."

Three days prior to one witness writing a statement against me, That witness told another witness they had no knowledge of my case and that he was being pressured to lie by detectives and D.A.'s Another states witness told someone he was going down town for coaching lessons from the D.A. on what to say. Later that states witness total someone he and his wife had decided not to go through with it, But he did. Another states witness said he signed a statement written by the detectives, "He claims he never even read it."

The list goes on. The D.A. and detectives are doing their best to bury the truth.

The D.A. called a press conference in which he told the public I had planned a prison break and to have 3 witnesses killed. He also notified the witnesses of this lie. By the D.A. scarring them to "death", how CAN they testify without being prejudice toward me? Someone must conduct an investigation in this matter. This isn't just for my benefit, but the whole public. This is common practice according to many sources. This has gone on for a long time. I've only just begun to explain. Unless your interested, I won't waste your or my time. If you are interested, please write and notify me. All the local newspapers and TV stations want an interview, "but I don't trust them." It took them a year + a half from the death of my wife to frame me.
