

6-12-99

Dear pastor + Edna,

Thank you so much for being who you are. You have always preached the word of God and each week presented it to us in a way that anyone could understand how to trust and live for Christ, you not only preached the word of God I think you lived it. Thank you so much for always being there each worship service to teach us God's truth even if you didn't feel like getting up that day. For always standing by your church family and attending their every need, if it be early morning, late at night or the wee hours, you were always there always ready to help the needy in what ever situation. I'll never forget when Richard was in the hospital two different times you were there all day or always calling and checking on him, when you couldn't be there. I remember all the people that you've stood by their bedside when they were sick or attending grieving families when they had lost a loved one.

Thank you pastor for your support ^{and} preaching God's word

Thank you Edna, for standing
by your husband and being
my friend.

I love you both and
will miss you very much -
may God bless you in whatever
task you choose.

Louise Kirkman
